### EDUCATION

#### BACK-END DEVELOPER

##### Coderhouse

Present

Learning to develop modern applications with Node.js and MongoDB, and gaining proficiency in working with both SQL and NoSQL databases, mastering data management.

#### REACT JS

##### Coderhouse

May 2023 - July 2023

I built an E-commerce platform using the React framework, incorporating functions, mapping, API consumption, Children, Hooks, and React libraries such as React Router, EmailJS, and Firebase..

#### JAVASCRIPT

##### Coderhouse

June 2023 - August 2023

I developed a website using JavaScript. Within the site, I simulated the online sale of products, employing functions, higher-order functions, DOM manipulation, Storage and JSON handling, as well as asynchronous operations, promises and Ajax and Fetch.

#### WEB DEVELOPMENT

##### Coderhouse

November 2022 - January 2023

Develop a website using HTML5, CSS, Flexbox, Grid, Git, GitHub, Bootstrap, @Media, Pseudoclasses, SASS, Servidores y SEO for the site.

### ADDITIONAL INFORMATION

#### LAWYER

##### National University of La Plata

I worked as a lawyer in an interdisciplinary team within Argentine state agencies, providing assistance both to women experiencing gender-based violence and individuals with mental health issues.
