# JORGELINA MARIANO

## FRONTEND DEVELOPER

## ABOUT ME

I am a proactive and organized professional with a background in Frontend development, actively seeking my first work experience in the field.

My track record in law demonstrates my commitment to continuous learning, and my ability to adapt, find solutions, and build strong interpersonal relationships drives me to explore new work challenges.

## FORMATION

**BACKEND DEVELOPMENT**
**Coderhouse.** Present

- Learning to develop modern applications with Node.js and MongoDB.
- Learning to work with SQL and NoSQL databases, mastering data management.

**FRONTEND DEVELOPMENT**
**Coderhouse.** November 2022 - August 2023

**REACT JS**

- I developed an E-commerce website using the React framework.
- I learned functions, map, API consumption, Children, Hooks, the React Router library, EmailJS and Firebase.

**JAVASCRIPT**

- I developed a website in JavaScript.
- I learned about functions, arrays, objects, higher-order functions, advanced operators, DOM manipulation, Storage and JSON, asynchronous programming and promises, Ajax and Fetch.

**WEB DEVELOPMENT**

- I designed a website using HTML5, CSS, Flexbox, Grid, Git, GitHub, Bootstrap, @Media, Pseudo-classes, SASS, Servers, and SEO for the site.
- I learned Git for version control and GitHub for repository management.
